

Mounted Games doesn't stop when you are no longer a teenager...

My name is Will Robinson, I'm 32 and a personal trainer & gym owner. I compete with the horses doing mounted games, representing Staffordshire Mga. I also play rugby for Scunthorpe in the National 3 league. Sport and fitness plays a huge role in my life and has since day 1!

Recently I had the honour to be selected to represent England at the European Championships. I've represented England most years since I was 15 but this year was quite the achievement for me. My mother-in-law bred my horse back in 2012 and he lived wild & untouched for the first 5 years of his life, she gave him to me as a 5 year old, then our journey began together! I produced this pony from the very beginning, so being selected for England on a horse that you've solely made yourself made it feel even more special! This is only in his second full season which made it even more of an achievement for us this year!

Some of my previous achievements include; 3x European Champion, 1x World Champion, 1x British Champion and 3x Home International Champions with the North of England. And there is multiple Reserve Champions for all the World, European and British Titles.

This year I was also asked to train the England U15 team which I proudly accepted. We had a big selection process watching lots of the riders over various competitions, and having to select just 6 to represent England! And WOW what a team they were! The European Championships is such a hard competition, but this team was absolutely faultless they won with a huge 54 point lead!

The IMGA European Championships is an amazing competition. We are a big family and have friends all over the world! Each year it's held in a different country, and we have traveled all over Europe for these. This year, we were lucky enough that England held the championship, and what a success it was!

Why not give it a try? To find out more about mounted games visit:
